

Dear Brothers,

I wish you much peace and blessings from God over you, your family and churches you belong to! I pray that the Lord Jesus who overcame death and the power of the enemy to fulfill your hearts with joy and to strengthen yourself in the power of His strength so that you may be strong in faith. I do hope you are good, that you have experienced in these hard days how good is our God – who is with us and carries our burdens every day.

My family is doing very well. God is our support and with His help we've been kept safe from the virus that has spread all over the world!

We started 2020 with many projects and many plans with God's help to accomplish these things.

Here are a few of the projects.

- Church orchestra, a small one; kids learning and playing in the church to His glory!
- Wednesday a day of fasting and prayer; personal repentance and the sanctification of the church.
- Evangelism outreach for January, February and March.
- Training of ministering brothers in March. TBBI sent Brother Gelu Pacurar to explain Hebrew to us.
- Before the pandemic we participated in six evangelistic services in other churches.
- In February and in the beginning of March we had evangelistic services in Dalboset and Sopotul Nou.
- On March 9th we had a wonderful service for Mother's Day. We were in Serbia with a group from our church.

From March all churches were closed due to the virus. We had two funerals during the pandemic. It was a difficult time because we could only have 8 people participate in the funeral.

Thank you for your support, It is so very helpful in the ministry and we know that God is blessing you for your sacrifice.

Please pray for our health as we do for all of you.

God Bless you,

Dobren family, Ion, Chiva and Manuel
